PERFECTLY HARMLESS. A Critical Case-Asthma-Bronchitis.

Mr. Charles A. Tiel, says the Philadelphia Evening News, was so prostrated with throat trouble following upon asthma, he was ordered by physicians to New Orleans. The change wrought no good; he returned home in a hopeiess condition. He was advised and he tried Red Star Cough Cure. Ilis cough and asthma left him, and after using a few bottles his health was completely restored.

Another-Pleuro-Pneumonia-Cough. Quinby House, Portland, Oregon.
After suffering a great deal-from an attack
of pleuro-pneumonia, connected with a
severe and painful cough, a friend of mine
recommended the Red Star Cough Cure to
me, after I had tried several other remedies
without success. One bottle ensured my
recovery.

Inflammation of Throat and Lungs.

Mr. Oliver Hinkley, Proprietor of the Pacific Carriage Co., 11 Powell St., Sán Francisco, Sal. Francisco, Says: "I have been suffering with a severe cough, causing finally inflammation of the throat and lungs for a long time. After consulting several physicians without deriving any benefit, I was induced by a friend, who had been similarly afflicted, to try the "Red Star Cough Cure." After a few doses I began to feel instant relief and after taking one bottle I was entirely cured. OLIVER HINKLEY.

BLAINE AND SHERMAN.

The Plumed Knight Still "On Top" for the Presidency.

Washington, March 14th.—[Special]—Representative Milliken, of Maine, in a conversation with your correspondent today, relative to the Republican nomination for President in 1888, said: "Sherman can't get the nomination if Blaine goes before the Convention. He will be nominated by such a vote as will mean something. Blaine can have it if he wants it. Should be be can have it if he wants it. Should such a vote as will mean something. Blaine can have it if he wants it. Should he be out of the way, I would say that Allison would be the next man. I think Allison will be nominated if Blaine is not.

"Is his position on the financial question strong?" asked your correspondent.
"He is all right on that point. There is no trouble on that. He never got drawn into the greenback movement, or anything like that. I talked with him a great deal just at the time when that question was uppermost, and if he held any such views he would undoubtedly have expressed them. I talked with him then on that subject and he was perfectly sound."

"Excellent. He is vigorous, and alive to unblic affairs. He does not have a good man."

The Indians, generally, have behaved well. About 50 children are under instruction by the Brothers of St. Joseph's Academy, and have made good progress. Some kindly-disposed white women have been instructing the men during the past month, with considerable success, in the elements of the English language.

Indians have died, leaving 446 in confinement, and in the leave of the properties of the conditions of home rule which to chamberlain laid down have been conceded. The question is, however, whether the Liberal party, as a whole, will agree to withhold all control over any order from the Dublin Parliament, thus reducing it to the level of a vestry. Some concession may have been made on this point, as well as on the exclusion of Ulster, which is one of Chamberlain's conditions. It remains to

Gold Excitement in Georgia.

ATLANTA, March 14th.—William Warring Habersham, a mining engineer, has discovered within twelve miles of Atlanta a lead of rose quartz, which assays over \$1,100 ton. The gold vein was found at a depth of forty feet, and has the general trend of the great gold-bearing leads of the country—northeast and southwest. Native miners have taken out over \$10,000 by panning and surface mining. miners have taken out over \$10,000 by panning and surface mining, with only the most primitive machinery. One miner panned out \$3,500 in nine months from the gravel found in the bottom of a little creek which runs through the property. This discovery of so great a quartz lead has created considerable excitement here. HERENCE TO PRINCIPLE. As a whole, the Legislature of 1887 was not such a body as the people of California should have called together to make their laws. It was not representative in that large degree which it should have been of the best elements of the social organization, nor so largely, as it should have been, representative of the intellectual capacity of the people. The elements that underlie social and political vice were represented where they should not have been. Influences had voice in the chambers, the breath of which is contaminating and the very existence of which threatens the stability of free institutions.

mained here on Sunday took the morning steamer yesterday for the bay, so as to make a trip of the lower Sacramento river by daylight and enjoy the sight of the o chards which have just commenced t blossom. Assemblyman Brierly is spend ng two or three days at the bay, and wil then return to Sacramento for a pleasur stay. He says that he feels better whe residing at Sacramento than at any other turn here and "pick up" to his proper weight before returning to the angelic city. It is a noticeable fact that the stand taken

notorious and scandalous that his stand against it was most serviceable to the State were made in different forms to effect the usual theft out of the State Treasury, but he at once ruled every resolution and attempt out of order, and there it ended. Mr. Boruck, the veteran editor of the Spirit of the Times, in addition to his jour-

nalistic duties while sojourning here dur-ing the legislative session, has more recently imparted largely of his well-known knowledge of parliamentary law and usages to the President of the Senate. The latter, while frankly admitting that he was without any experience as a presiding officer, made faithful application to the work of acquiring knowledge upon the subject, and received the aid of the Spirit of the Times editor in that direction, and becoming quite familiar with the duties of the position prior to the adjournment of

The reduction of internal revenue and ne taking off of revenue stamps from proorietary medicines, no doubt has largely benefited the consumers, as well as reliev-ing the burden of home manufacturers. Especially is this the case with Green's Au gust Flower and Boschee's German Syrup, as the reduction of thirty-six cents per dozen has been added to increase the size of the ottles containing these remedies, the giving one-fifth more medicine in the 75 cent size. The August Flower for Dyspepsia and Liver Complaint, and the German Surup for Cough and Lung troubles, have perhaps the largest sale of any medicines in the world. A great deal of speculation as to his age has been indulged in and it has been estimated that he is some where between 100 and 110 years of age Last week his papers granting him a pen sion for services in the Mexican war ar rived here, and a reporter of this paper took from them the following data "Samuel K. Matney enlisted in Shelby county, Illinois, for the Mexican war in the year 1846, in Company C, Third Regiment, Captain Freeman, at the time h was 62 years of age," and consequently now in his 103d year. This information was taken from the records in the War Department at Washington, and is supposed to be reliable. Tule Dad has resided in this vicinity for a good many years, and until within the past two years has been hale and hearty, and able to accomplish as nuch work as a great many men of fort and fifty years. Some two years ago hi health began to fail, and he has since beet quite feeble, and only a few days ago wor reached town that his end was approaching, and probably before the spirit will have crossed the river. Coroner's Inquest Upon the Body of John Kasson.

Coroner Clark held an inquest yesterday upon the body of the man found dead about 1½ miles south of Florin Sunday morning, as narrated in our last issue. But little new information was elicited. Footprints show that one man dragged the deceased from the railroad embankment, where he received the fatal wounds, to the fence, fifty feet from the track, where the body was found lying on the ground. Or course, one naturally wonders why the murder of such finds of such funds could be devoted to premiums, and not a dollar of such funds could be devoted to premiums, and not a dollar of such funds could be devoted to premium, and the course response to that much trouble, and three

It has been ascertained that Louis Reppler, of San Francisco, whose name appeared on a sealed letter found upon the deceased, did not know any person named John Kasson, but he has friends in Nebraska who may have given Kasson a letter of introduction.

A DAY LONGER.

The success of the Millinery Opening warrants its continuation a day longer.

This event is the culmination of weeks of thought, study and effort in getting together every desirable style and novelty possible.

We, therefore, have no hesitancy in asking visitors to judge it critically; to judge of the vigilance of our buyers; to judge what the prestige of a large establishment gains for us in prices, and to judge as a whole of our resources and facilities for supplying Millinery of all kinds, from plainest to costliest, upon the most advantageous terms.

You may not be a patron of this Department, you may have no thought of buyingstill we think you'll find a visit to the Opening of interest, if for no other reason than to find out just what will be worn this season. There will be no time for this so good as now, when all the good things can be seen together.

New Spring Wraps and Jackets, Woolen and Cotton Dress Fabrics are displayed in adjoining Departments.

Special Displays in Men's Clothing, Neckwear, Hats, Shoes, etc.

THE BEST. THE VERY BEST. NOTHING BUT THE BEST.

Whether you buy Clothing here that costs little or much, you can depend upon getting the very best value the money affords.

The Big Clothing Window, with its variety of Overcoats, Suits, etc., each one ticketed with the price, will show you at a glance what we are doing in this line of business..

One reason of the success of our Clothing is that nearly all of it is made to our special order, and is just as we want it to be. We know from experience what are the common defects in made-to-order Clothing, and therefore rectify them in the goods made to our order.

SARSFIELD'S CHRONIC ULCER SALVE!

The people of the Interior will remember that a few years ago, J. P. SARSFIELD, of Sacramento, became fortunately possessed of certain valuable remedial agents. With these he effected in Sacramento and Central California remarkable cures, and drew the approving attention of many physicians. So widespread became the fame of his remedies, that business men were convinced of their entire reliability, and of the truth of the marvels they accomplished. The result has been the formation of a Company to aid him in putting these needs for suffering humanity broadly upon sale. The Company has its Depot at No. 115 EDDY STREET, SAN FRANCISCO, but the medicines can be had of all reputable

FEVER AND AGUE, or CHILLS and FEVER,

and all Malarial Diseases.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient. Use no other.

Transportation and Markets.

Cheap and rapid transportation is of the utmost importance to those who are both producers and consumers. It cheapens all that he buys and enhances the price of all he produces. The "LANGFORD COLONY" is most advantageously situated in this respect. It is between two railroads that both connect with steamboats that run from the Sacramento and San Joaquin points to the Golden Gate. This gives the cheapest freight and passenger rates for the distance est freight and passenger rates for the distance n this Coast. The markets for all kinds of profucts are good. The Canneries, Wineries and Fruit Dealers take all the Fruit raised, at highly remunerative prices. There is an unlimited demand for all the Wine, Raisins, Figs, Prunes, Green, Dried and Ganned Fruits that can be grown. Dairy Products, Fowls, Eggs and Vegetables find a ready sale. TERRIBLE RAILROAD ACCIDENT NEAR BOSTON.

A Train Goes Through a Bridge-Thirty-two Persons Killed and Apout Fifty Injured.

[BY TELEGRAPH TO THE RECORD-UNION.]

Boston, March 14th .- A frightful accident occurred on the Dedham branch of the Boston and Providence Railroad this gage car, under charge of conductor Tilden, broke through the bridge. The engine and three-cars went over safely, but the five is a certain remedy. Chronic irritation,

It is stated that the bridge where the accident occurred this morning is a comparatively new one, and that the accident was caused by a truck of one of the cars giving way, thus causing the car to strike heavily. caused by a truck of one of the cars giving way, thus causing the car to strike heavily against the abutment of the bridge. The smoking car, after it fell, caught fire, but the fire department was promptly on hand and prevented any spread of the flames.

The bodies of the dead have all been removed, and of the wounded some are at the hospital and some have been taken home. Among the killed are conductor Tilden, Sergeant Taylor, of the Boston police; W. E. Snow, Alice Burnett, of Roslindale; Mabel Adams and Frank Norris, of Dedham. Harry Gay was mortally injured, and is dying. Many of the injured were brought to hospitals in this city, and some of the killed have not yet been identified. The train was crowded with working people, and the most intense excitement prevails among their friends, who are anxious to learn the names of the killed and

o learn the names of the killed and The engineer, when his engine broke from the train, kept right on to Forest Hill and gave the alarm, instead of stopping to ascertain the extent of the accident. On that account it was impossible to get assistance at once. The officers of the road are present, and are doing all they can. Many

LATER FACTS CONCERNING THE DISASTER. Boston, March 14th—P. M.—An old flaw had weakened the truss, or girder, to such an extent that when the full weight of the train came upon the bridge it caused the remaining section of the truss to give way, thus allowing the entire structure to fall. Engineer White says that when going across the bridge ne felt a shock, which he thought might have been caused by a broken axle. This, however, could not possibly have been the first cause of the ccident, for the trucks of the first two cars are in good condition, except in regard to the fractured oak timber of one of the

the fractured oak timber of one of the trucks. The only remaining possible cause of the accident is a broken rail, and it is doubtful, as before stated, whether an investigation into this point could result satisfactorily, for there are many pieces of broken and twisted rails snarled up in the wreck. The probable cause of the smashing up of the three cars, pearest the engine g up of the three cars nearest the engine hich remained on top of the embank ment, is that they must have jumped the track when the rear car went through the bridge. Bussy bridge was built 15 years ago, and during the past 10 years has been

paired three times. Workmen have been busily engaged all lay in removing debris from the street and rom the embankment. The wreck is so omplete that no attempt was made as save any portion of the train. Additional evidences were found of the terrible nature of the disaster, at a late hour, as the work of removing the wreck pro-gressed. In some places were fragments of flesh, or pieces of clothing, which had belonged to some victim whose remains previously been removed. There was

eces of clothing found were from gar-ents of women, and the fatality among them was proportionately greater. In one place the bodies of seven were taken out all horribly mangled. A PITIFUL SIGHT Was that of two girls with arms around one another, clinging together in the embrace of death. In many instances axes and

rowbars were necessary in order to ree persons who were pinioned in the reck. In two cases it was necessary to not the bodies in two in order to get them They were already crushed out of resemblance to human shape, and so oroughly wedged in that they could be oved in no other way. One old lady was aken from a car uninjured, with her cloth-ng torn to shreds. She said the women in he car seemed panic-stricken at the mo-ment the crash came. THE HEADLESS TRUNK OF A WOMAN Was found lying across a timber in the street under the bridge, with one arm com-oletely gone and her lower limbs all cut and mangled. The head was found among a tangle of iron and fragments of a car a ew feet away. One man was seen to walk rom the wreck in the direction of Roslindale after the wreck, and when he had gone a dozen yards he fell dead, either from excitement or internal injuries. Everybody seemed dazed and could not realize what had occurred. Daniel Roundy, of Roslin-

dale, had A MOST REMARKABLE EXPERIENCE. He was in the smoking car playing cards with Ed Snow, Harry Gay and Sergeant Lailler. The crash came, and the next thing he knew he was in the muddy stream uninjured, and holding in his hand one queen of diamonds, which was covered with blood. His three companions had all been killed.

been killed.

It has been impossible to obtain a correct and complete list of the killed and wounded, owing to the fact that immediately after the catastrophe occured its victims were hastily removed from the scene and in such widely diverse directions that it is extremely difficult to trace them correctly. Some of the injured were at once conveyed to their homes; others were taken to hospitals, while others still found temporary shelter in residences in the immediate neighborhood. Some of the dead (a majority of them, in fact,) were brought to the city hospital morgue, but there were o the city hospital morgue, but there were others taken to the depots of Roslindale, Forest Hill and Canterbury. Agents of the rollway company are now diligently at work endeavoring to compile complete statistics of the calamity, and a full list of the casualties will doubtless be furnished

at the earliest practicable moment. A CURIOUS FEATURE OF THE DISASTER Is found in the fact that the bridge went down with the wreck, and not a scrap of iron remained attached to the abutments, and but for the chasm and awful wreck

San Francisco, March 14th—[Special.]—
The Oakland city election took place today for Mayor and minor municipal officers. There were four separate tickets in
the field, headed as follows for Mayor:
W. R. Davis (Republican), Henry Hayes
(Democrat), H. D. Ross (Prohibitionist),
and J. West Martin (American party).
Much interest in the election was to see
what figure the new party, the American,
would cut. At a late hour to-night the
count was still in progress, and the result
will probably not be known before morning. The indications point to the complete success of the Republican ticket. it will reach one hundred or more. Of those at least 25 are quite badly hurt, and the re-mainder received only slight bruises. palpitation, excessive or defective action of the heart, shortness of breath and pain are removed by it in a short period. JESSES. A. H. DIXON & SON:

Yours, Publishers of The Freemason, Toronto. ONE YEAR LATER. TORONTO, November, 1885. Four subscribers to THE FREEMASON have ritten during the past few months stating that hey have been completely cured of Catarrh by ising A. H. Dixon & son's Catarrh Remedy. We rouch for the reliability of the firm, and recommend all sufferers from that disease to give the remedy a fair trial.

What a Bowmanville Editor Has to Say Regarding Dixon's Catarrh

nedy a fair trial. COWAN & ON, Publishers of The Freemason, Toronto.

BOWMANVILLE, Canada, Jan. 2, 1883. To the Editor of the Statesman: Who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner they cannot account for, Ropy Sediment in the urine, etc. Many die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. Cures Guaranteed in All such Cases. Consultation Free. Thorough examination and advice, including chemical analysis and microscopic examination of the urine, \$5. An honest opinion given in every case. DEAR SIR-Perhaps some of your readers are filicted with that dreadful disease-Catarrh. If so, I ask permission to say, through the States an, that I have been a subject of Catarrh for he last twenty years, and for the last eight years no one can tell the pains I have endured. At times I had a dull, heavy headache, discharges falling into the throat of a thick tenacious mucus. My eyes were weak and watery, ringing in the ears, deafness, hacking and coughing to clear the throat, and at times I was almost suffocated. I consulted some of the best physicians of the day, but to no effect. I have tried every kind of patent medicines, washes and snuffs that I could hear of, but did not receive the least benefit until I tried Dixon's Catarer Remedy. On the 5th of August last I procured the remedy and started its use immediately, and by the use of only three treatments I consider myself permanently cured. Its beneficial action was immediate and the cure speedy. Judging from the effects of this treatment on myself, I am satisfied that Dixon's is the only known treatment for Catarrh which effects peryears no one can tell the pains I have endured.

nysel, I am satisfied that Dixon's is the only known treatment for Catarrh which effect a per-manent cure. To all who are suffering from Ca-arrh I must conscientiously say: Give Dixon & Son's Catarrh Remedy a fair trial; it is worth ts weight in gold. NOTE BY THE PUBLISHER .- The Publisher of e Statesman has had intimate acquaintance with the writer of the above letter, for about thirty years, and can, with scores of others, vouch for the correctness of the above statements. We have never known so bad a case of Catarrh as his was, and the use of Dixon's Catarrh Remedy has effected a perfect cure, so that no symptoms whatever of the disease remain. We gladly give space to this letter in the hope that it may be of benefit to some victim of Catarrh.—W. A. JAMES, Editor and Proprietor of The Statesman, Bowmanyille, Ont.

Interesting Visit to Messrs. A. H. Dixon & Son's Office.

From the Toronto World, November 29, 1883.

Opening of the mails is generally more or less rivate individuals. In our profession of edit ng a newspaper we are treated to a great va riety of letters, some pompous and dry, others racy and humorous, some sentimental and lackadaisical, a few fault finding, and many, which we value very highly, of genuine praise. Our reporter was entirely unaware of the surprise which was in store for him when he accepted an invitation from Messrs. A. H. Dixon & Son to be present at the opening of their mails a few days ago, at their office, No. 305 King street West, where they claim to cure the worst cases of Catarrh in from one to three applications by their new method of treating this prevalent and hitherto incurable disease. Letters of praise and thankfulness were-opened by the score from many parts of Canada and the States, and even from Greet Britain, from parties who had used the new remedy—each letter being sufficient proof in itself that the new treatment for Catarrh is all that Messrs. Dixon & Son claim. For the benefit of our readers who may be suffering from Catarrh, we will publish shortly some extracts from a tew of the letters which our reporter perused, omitting for obvious reasons the names of the writers. riety of letters, some pompous and dry, others

The broader Truly Truly and the past six months, fully 90 per cent have been cured. This is none the less startling when it is remembered that not five per cent. of patients presenting that not five per cent. of patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men, that these diseases are due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination. This accomplished, the disease practically cured, and the permanency unquestioned, as cures effected by him five years ago are cures still. No one else has ever attempted to cure those diseases in this manner, and no other treatment has ever cured Catarrh, Catarrhal Deafness or Hay Fever. The application of the remedy is simple, and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure, the majority of cases being cured at one treatment. Catarrh, Hay Fever. Toronto Globe, Nov. 1885. Sufferers are not generally aware that this curse of our country is due to the presence of living parasites in the lining membrane of the nose, but microscopic research has proved this beyond a doubt, and the result is that a simple remedy has been formulated whereby Catarrh, Catarrhal Deafness and Hay Fever are permanently cured in from one to three simple applications made by the patient at home. A descriptive pamphlet of this new treatment is sent free on receipt of stamp by A. H. Dixon & Son, 305 King street West, Toronto, Canada.

An Editorial in the Wayne County "Courier." Published at Detroit, Mich., Sept. 16, 1886, states as follows:

There is probably no disease to which mankind is heir which has brought out so many shams and frauds as Catarrh has. Of all human specially to exercise the ingenuity of quacks in the production of nostrums as manifold as they are worthless. It is, therefore, actually refreshing to come across a remedy for this disease which affords positive assurances of relief if not actual cure to the sufferer. We refer to the treatment of A. H. Dixon & Son, 305 King street. West, Toronto, Canada. We have the name of a gentleman in our possession, which will be given to inquirers, who has been a sufferer from Catarrh for the past 20 years. He tried many doctors and innumerable so called cures, but all left him in a worse plight than before. One treatment of A. H. Dixon & Son's remedy made a new man of him and effected, he believes, a perfect cure. The Messrs Dixon have a theory of their own about Catarrh different from all others, and upon this they work to eliminate the cause of the disease, with almost certain success. It is seldom we are able to give so full and free an indorsement to anything as we are able to give to this really wonderful remedy.

by the editor of the Courier solely in the interest of sufferers from Catarrh, the facts of the case referred to having come under his personal knowledge. It is gratifying to learn that there are some newspaper proprietors who will give a good medicine its due without first collecting the almighty dollar. We have to thank the Courier for its courtesy, as also the San Francisco Wasp, the Toronto Freemason and Canadian Statesman for similar kindnesses in the past, wouching for the superior merits of our remedy, all of which are links in the chain of evidence proving conclusively that our remedy is the only one in the world which will cure Catarrh Catarrhal Deafness or Hay Fever. We send a pamphlet describing our new treatment, free, on receipt of three-cent stamp.
